

WELCOME BACK TO SCHOOL!

Pupil Guide

I have been off school for a long time.
Now the people who run the country
say it is Okay to go back.

School will be open again on
8th March 2021.

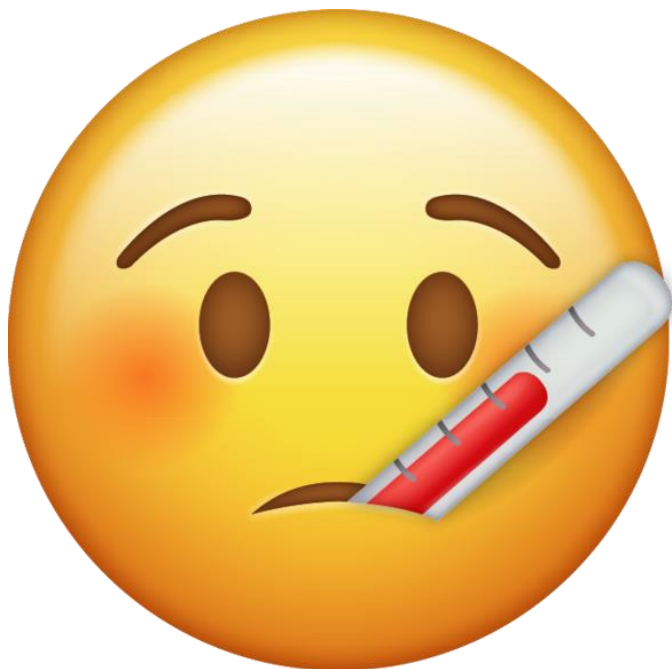

It is safe to go back to school but some
things will be a bit different.

I will come into school through the front or back gates. My grown-up will not come into school but that is ok. An adult will be at the gate to meet me.

My grown-up will make sure that I am well enough to come to school.

This helps to keep everyone safe.

When I am in school, I can see all my friends again.

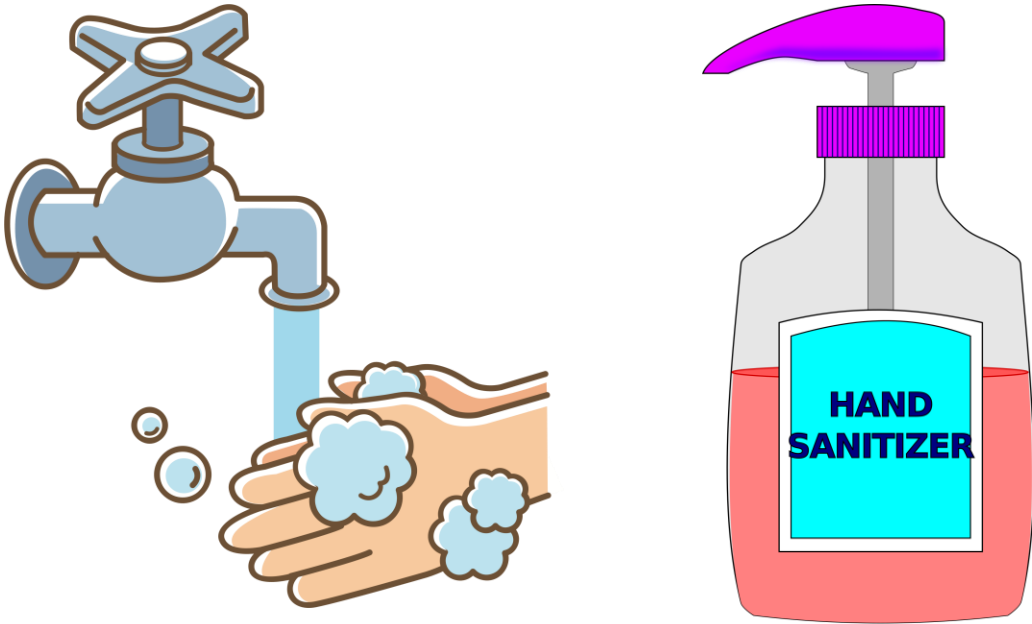

We are going to be in a class bubble.

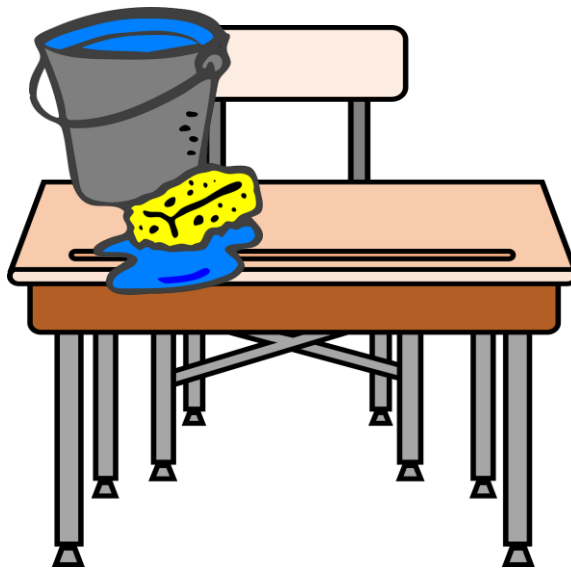

There are some things I need to do to keep me and everyone else safe.

It is important to keep clean. This keeps everyone healthy.

I will wash my hands using soap or handsanitizer.

I will help to keep my classroom clean as well.

I will bring my own pencil case if I am in Year 1,2,3,4,5 or 6. It is ok if I forget something. We have stationery in school too!

I can change my reading book but I must make sure I was my hands at home once I've read it.

Sometimes the grown-ups might have to wear masks and gloves.

That is Okay. They are still the same person.

The classroom will look different and I will sit in a row.

I will wear my school uniform apart from on my PE day. Then I will wear my PE kit. My teacher will let me know when we are doing PE.

School will be a bit different when I go back.

It won't be like this forever and at some point in the future everything will go back to normal.
